

No. 2024 – 010

Genetic Testing Evaluation Certificate

Name of institution : Macrogen, Inc.

Name of laboratory : Molecular Genetic Laboratory

Lab ID : 47

Certification period : Jan. 1 to Dec. 31, 2025

Type of evaluation		Onsite Inspection (grade)	External Quality Assessment (score)
Evaluation category			
Laboratory General		A	
Category 1	Molecular genetics	A	92.3
	NGS germline		
	NGS somatic		
	NIPT		
	Cytogenetics		
	CMA		
Category 2		A	99.8
Category 5			

It is hereby certified that the aforementioned laboratory participated in the 2024 genetic testing institution quality evaluation conducted by the Korean Institute of Genetic Testing Evaluation and received the specified outcomes.

Dec 30, 2024

- ※ Grade standards: Grade A (excellent); Grade B (good, subject to education); Grade C (quality improvement required, subject to education).
- ※ If any practice that legally disqualifies the institution is discovered during the aforementioned certification period, this certification may be suspended or canceled during the remainder of the certification period.
- ※ The certification period will remain valid until the certificate for the subsequent year is issued.
- ※ Suspension of evaluation: The evaluation is suspended if any genetic testing item in an evaluation category has not been evaluated in the laboratory for any reason, including the lack of preparation of the laboratory
